Charge boldly
Driving an EV has never been so easy.

Enel X Way® app offers best in class home charging, coupled with thousands of public charging options, all in one app!

At home, smart charging features make charging your EV easier, greener, and cheaper. Once you sign in to Enel X Way app, you can either configure your account and add your vehicle details, or start charging right away.

On the go, Enel X Way app provides access to a large and rapidly expanding network of charging stations. Enel X Way app users can access both Enel X Way charging stations, and partner networks. Available stations of all levels, including DC Fast Charging, can be found ahead of your departure. Planning your trips has never been easier! No matter where you are, Enel X Way app will provide a comprehensive summary of your most recent charging sessions.

Monitor & Control Charging
View and control your public and home charging sessions in real-time.

Charge Smarter
Schedule home charging when rates are lower — making your electric vehicle even cheaper to drive.

Everything in One App
Access the charging station map, view charging stations details and cost to optimize your trips.

Find Public Charging Stations
Enel X Way app enables easy access to thousands of public charging stations across North America. More are being added every day!

See Availability
See ahead of time which public charging stations are available to save time.

Contactless Payment
Add a credit card to your Enel X Way app wallet and pay for public charging in a snap.
